Financial Report
Fiscal Year 11/12
(Through 12/31/11)

• **Overview**..... **G**

Budget and expenditure reduction efforts continue. Enforcement expenditures through the first half of the fiscal year, however, are significantly higher than average due to increased case volume and complexity. Departmental *pro rata* expenditures have also increased since the end of furloughs, and further increases will be necessary in order to fund the department-wide BreEZe project. These increases, combined with a relatively invariable licensee base and revenue stream, are resulting in a gradual depletion of the Board's fund reserve. While staff will continue to monitor expenditures and limit purchases to a minimum, potential solutions must be identified to ensure future fund stability.

• **Budget**..... **H**

The Board of Podiatric Medicine's total expenditures through 12/31/11 (FY 11/12) are up from previous years primarily due to a recent spike in Attorney General costs. We are hopeful that these costs will subside, but enforcement expenditures are highly unpredictable due to the range of enforcement cases. In addition, the end of furloughs has resulted in a slight increase in *pro rata* costs for the provision of departmental services.

Twenty-one percent (21%) of the Board's expenses (through 12/31/11) have been for Departmental/Central Administrative Services, which include: maintenance of licensing and enforcement systems, website maintenance, telecommunications, personnel, pc support, internet services, and other administrative support services.

Thirty-one percent (31%) of the Board's total expenditures (through 12/31/11) have been for enforcement-related costs associated with services provided by the Office of the Attorney General, the Office of Administrative Hearings, Medical Board Investigations staff, and podiatric medical experts and consultants.

BreEZe BCP:

BPM's share of the departmental BreEZe BCP is shown at the end of this section.

Cell Phone Reduction Plan:

BPM has complied with Executive Order B-1-11 and assisted the department in realizing a significant reduction in the number of cell phones used by DCA staff, which has resulted in a department-wide annual cost savings of approximately \$425,000. BPM reduced the number of staff cell phones from four to two (\$2,000 annual savings).

Travel Restrictions:

BPM will continue to comply with Executive Order B-06-11, which states that (1) no travel, either in-state or out-of-state, is permitted unless it is mission critical or there is no cost to the state, and (2) no travel is permitted for more than the minimum number of travelers necessary to accomplish the mission-critical objective.

- § Breakdown of Medical Board Shared Services costs [FY 08/09 through FY 11/12]
- § BreEZe Funding

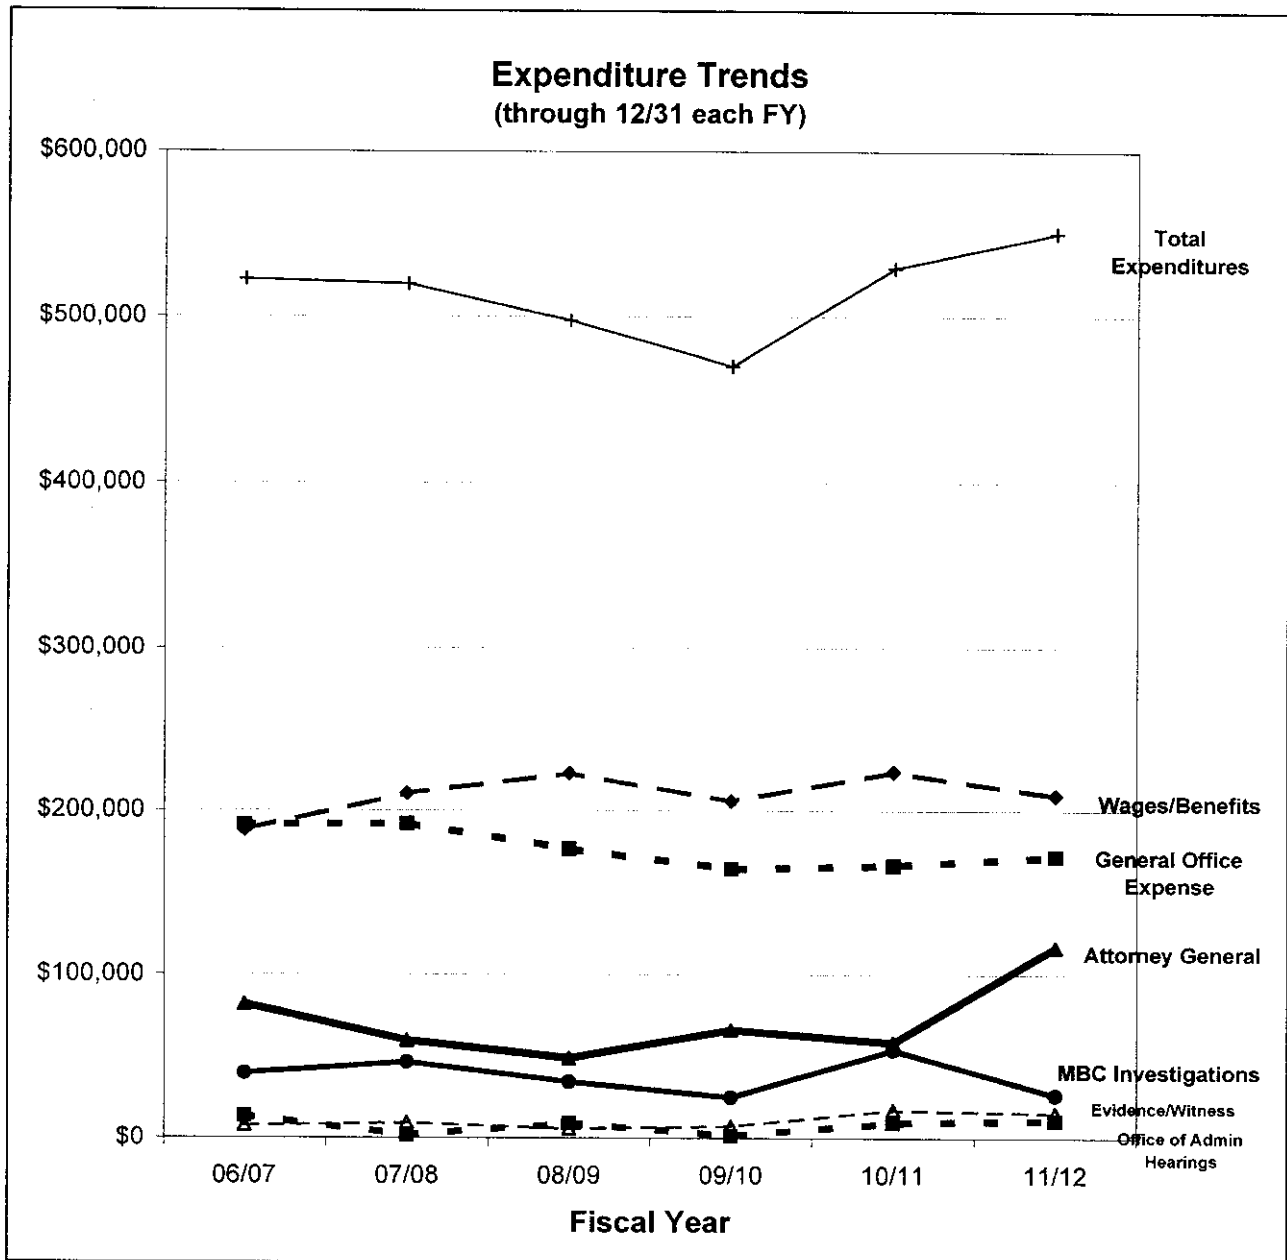

● **Fund Condition**.....|

The enclosed fund conditions show projections using BPM's actual and future planned expenditures and DCA's plan, which assumes full budget expenditure. Note that while BPM's projection provides a more accurate and positive outlook, a potentially declining reserve balance indicates a need to continue monitoring revenues and expenditures and identify potential solutions to ensure future fund stability.

The BPM Budget History table and chart reflect budget, revenue, expenditure, and reserve figures for FYs 1996/97 through 2010/11. As the chart indicates, revenues have remained very stable over the past several years. Expenditures, however, have fluctuated in a manner very consistent with budget changes, which are largely determined by *pro rata* and other nondiscretionary disbursements.

The BreZE Project has a different payment model which significantly reduces the project risk to DCA. The payment model requires the vendor to produce an acceptable product prior to receiving the majority of the payment. Once an acceptable product is approved, and your board/bureau goes live on BreZE, then your board/bureau will begin paying for the system development/solution vendor costs over a 5 year payback period. FY 2019-20 represents the first year of only ongoing maintenance costs for all BreZE clients.

For clients in release 1, the greatest solution vendor costs are from FY 2012-13 (year board/bureau goes live) thru FY 2016-17 (last year of payback period).

For clients in release 2, there are some solution vendor costs in FY 2012-13 (year board/bureau goes live), but the greatest costs are from FY 2013-14 thru FY 2017-18 (last year of payback period).

For clients in release 3, the greatest costs are from FY 2013-14 (year board/bureau goes live) thru FY 2017-18 (last full year of payback period).

LICENSING & MEDICAL EDUCATION COMMITTEE

Dr. Longobardi, *Chair*

Dr. Mansdorf, *Vice*

Overview

For the past several months licensing has been working on updating the board's current license renewal procedure as well as the renewal form. With the new BreEZE system coming, there will be several different ways to make payments and account for Continuing Medical Education and Continuing Competence credits. The new process will authorize doctors to renew online without having to submit a hard copy of the renewal form. In the first stages of development there was cause for concern as the plan was to assess BPM with a \$15,000 a year charge for allowing payments to be made online. Since then BPM has voted to add an \$18 fee to the online payment (2% x \$900 x an estimated 833 online renewals) which will account for the \$15,000 convenience charge that will be assessed. This new method will allow for quicker processing times as well as making the renewal procedure for licensees much easier. The new process is proposed to begin in late 2012.

Revised APMLE Part III Exam Introduced

Beginning in 2008 the National Board of Podiatric Medical Examiners began the process to update Part III, clinical skills examination. A panel of experts determined whether it was appropriate for the revised specifications and level of experience by reviewing every question on the examination. A passing score was established using an equating technique referred to as a linking study and adopted by the National Board of Podiatric Medical Examiners after review of the report. The panel also developed a recommended passing score for the form which was administered at the December 2011 examination that reflects entry-level competence by a podiatric physician with one year of post-graduate training. Every step in the process was conducted to meet nationally recognized standard requirements and procedures for professional licensing examinations. The examination and all subsequent forms will also include a board-adopted passing score that reflects entry-level competence by a podiatric physician with one year of post-graduate training.

With the new NBPME standards in place we no longer need to require one standard error of measurement higher because NBPME has upgraded Part III to reflect postgraduate training as BPM has been requesting for over a decade. NBPME's scores are now in compliance with 2493(b) and can be used without requiring one standard error of measurement higher.

The Part III exam held on December 7th had a pass rate of 95% with only one examinee not passing by the National Boards revised standards. The next part III exam is scheduled for June 13, 2012.

Continuing Competence and CME Audit

The Continuing Competence and CME Audit of 2011 has been completed with a 90% pass rate. Out of 20 randomly selected licensees 18 provided proof of compliance in regards to Continuing Competence, as required by Section §2496 of the Medical Practice Act, along with showing evidence of completion in meeting 50 hours of approved Continuing Medical Education credits. All doctors who completed the audit were over the required CME credits needed for every two year renewal cycle. The next CME Audit is scheduled to begin September 2012.

NBPME Reports

The National Board of Podiatric Medical Examiners Newsletter The American Podiatric Medical Licensing Examination Series

Elections

At the annual meeting of NBPME on July 30th the following members were elected:

Officers

President-Mindy Benton, D.P.M.
Vice President-Charles M. Lombardi, D.P.M.
Treasurer-Wayne Axman, D.P.M.

Board Members re-elected to a three year term

State Board Member-Wayne R. Axman, D.P.M.
Residency Director Member-Charles M. Lombardi, D.P.M.
Podiatric Physician Member-Russell S. Sticha, D.P.M.

Clinical Skills Examination (CSEC)

After previously determining that a clinical skills examination is needed to evaluate patient interaction and documentation skills, a second meeting was held to begin developing a pilot examination August 26-27, 2011 in Philadelphia. Further development will be completed by telephone conference. Upon evaluating the results of the pilot administration, scheduled for early 2012, the board will determine whether to proceed with development of a formal examination. Charles Lombardi, DPM, and CSEC committee chair, said he is optimistic that an important new component to the APMLE series will be available by 2013.

Revised APMLE Part III Exam Introduced

The culmination of an effort begun in 2008 with an updated practice analysis survey followed by revised test specifications was the administration of a revised Part III examination in June 2011. The examination is now directed toward the competencies expected of a candidate with at least one year post graduate training.

ENFORCEMENT COMMITTEE

a. Overview.....M

Recruiting for Consultants: BPM needs a few good doctors to act as consultants and recruitment is underway. Attached is a recruitment letter that went out to all Orange Country Podiatric Medical Association Members as the need for consultants is especially pressing in Southern California.

Consultant Training: The annual enforcement meeting/training is being planned to take place during the Western Foot and Ankle Conference in Anaheim June 2012. The focus will be on training newly appointed consultants but all BMP medical consultants are encouraged to attend as the training and presentation will include the newest and up to date materials and practices. Invitations to BPM Consultants will be mailed after arrangements have been confirmed.

New Contract Process for Experts and Consultants: DCA is requiring all Boards and Bureaus to follow a new contract process when using Experts and Consultants. This change was effective January 1, 2012. New contracts and forms were mailed to all current BPM Experts and Consultants.

Status of Probation Program: The Probation Program is functioning smoothly. February 1, 2012 saw the addition of a new Probation Monitor, Mike Brown, to help cover Southern California. Mr. Brown is a Retired Annuitant from the Medical Board of California where he worked as a Supervising Investigator and is knowledgeable about the enforcement process.

b. Data Reports.....N

Complaint and Disciplinary Data Report, Continuing Competence Report, BPM and MBC Matrix Reports, the Monthly Enforcement Report to DCA, Quarter 4 Performance Measures, and the Probation Report are exhibited in Tab N.

c. Approval of new Podiatric Medical Consultants (action).....O

The Curriculum Vitae's of the new Podiatric Medical Consultants for Board vote and approval are exhibited in Tab O.

BOARD OF PODIATRIC MEDICINE
2005 Evergreen Street, Suite 1300 Sacramento, CA 95815
P (916) 263-2647 F (916) 263-2651 www.bpm.ca.gov

January 17, 2012

The California Board of Podiatric Medicine is recruiting for Podiatric Medical Consultants (PMCs).

Mission Statement

"The mission of the Board of Podiatric Medicine is to ensure protection of consumers under the laws of California through the setting and enforcement of contemporary standards and the provision of accurate and timely information that promotes sound consumer decision-making."

Role of the Podiatric Medical Consultant

The role of the podiatric medical consultant (PMC) is as follows:

- To review complaints concerning quality of care
- To review complaints where medical expertise and/or interpretation is necessary
- To serve as a medical resource for board staff, investigators, attorneys general and other enforcement personnel
- To assist probation officers in the monitoring of probationers

The role of the PMC is critical to the board's enforcement program and its effectiveness as a consumer protection agency.

The Complaint Process

A consumer services analyst (CSA) in the Medical Board's Central Complaint and Investigation Control Unit processes complaints. The CSA determines if the complaint is within the jurisdiction of the board and when appropriate, refers the complaint to the executive officer/enforcement coordinator for review. The complaint is then assigned to a PMC if warranted. Sometimes the PMC will not review a complaint until it has gone to investigation. An investigator may then contact the PMC. Once a complaint file is ready for a PMC's review, the CSA sends the complaint along with a cover memorandum, medical records and a prepaid return envelope. The PMC is to review the file and determine what kind of action is indicated.

Assignments are made based on the availability and location of the PMC. Reimbursement is at the rate of \$75 per hour. The time commitment involved varies based on availability of each PMC and complexity of each case but averages just a few hours per month.

CONSUMER PROTECTION ENFORCEMENT INITIATIVE

Monthly Enforcement Report to DCA

Month: January

Year: 2012

Program: California Board of Podiatric Medicine

Date Submitted: 02-10-2012

Complaint Intake

Complaints Received by the Program. Measured from date received to assignment for investigation or closure without action.

Complaints

Received: 6

Closed without Assignment for Investigation: 0

Assigned for Investigation: 6

Average Days to Close or Assigned for Investigation: 4

Pending: 0

Convictions/Arrest Reports

Received: 0

Closed: 0

Average Days to Close: 0

Pending: 0

Investigation

Complaints investigated by the program whether by desk investigation or by field investigation. Measured by date the complaint is received to the date the complaint is closed or referred for enforcement action. If a complaint is never referred for Field Investigation, it will be counted as "Closed" under Desk Investigation. If a complaint is referred for Field Investigation, it will be counted as "Closed" under Non-Sworn or Sworn.

Desk Investigation

Initial Assignment for Desk Investigation: 6

Closed: 6

Average Days to Close: 100

Pending: 44

Field Investigation (Non-Sworn)

Assignment for Non-Sworn Field Investigation: 2

Closed: 3

Average Days to Close: 423

Pending: 15

Field Investigation (Sworn)

Assignment for Sworn Field Investigation: 0

Closed: 0

Average Days to Close: 0

Pending: 0

All Investigation

Closed: 9

Average Days to Close: 208

Pending: 59

Board of Podiatric

Medicine

Performance Measures

Q4 Report (April - June 2011)

To ensure stakeholders can review the Board's progress toward meeting its enforcement goals and targets, we have developed a transparent system of performance measurement. These measures will be posted publicly on a quarterly basis.

In future reports, the Department will request additional measures, such as consumer satisfaction. These additional measures are being collected internally at this time and will be released once sufficient data is available.

Volume

Number of complaints and convictions received.

Q4 Total: 23

Q4 Monthly Average: 8

Intake

Average cycle time from complaint receipt, to the date the complaint was assigned to an investigator.

Target: 9 Days

Q4 Average: 11 Days

Intake & Investigation

Average cycle time from complaint receipt to closure of the investigation process. Does not include cases sent to the Attorney General or other forms of formal discipline.

Target: 125 Days

Q4 Average: 114 Days

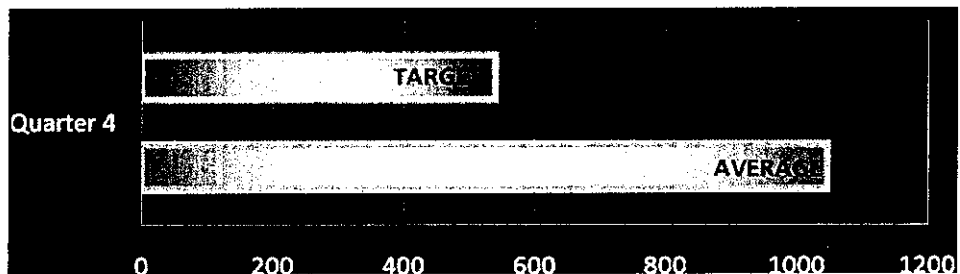

Formal Discipline

Average number of days to complete the entire enforcement process for cases resulting in formal discipline. (Includes intake and investigation by the Board, and prosecution by the AG)

Target: 540 Days

Q4 Average: 1,046 Days

Probation Intake

Average number of days from monitor assignment, to the date the monitor makes first contact with the probationer.

Target: 25 Days

Q4 Average: N/A

The Board did not contact any new probationers this quarter.

Probation Violation Response

Average number of days from the date a violation of probation is reported, to the date the assigned monitor initiates appropriate action.

Target: 14 Days

Q4 Average: N/A

The Board did not handle any probation violations this quarter.
