3 Dr. LaRose moved and Mr. Cheng seconded approval of the November 3 minutes. The motion
4 passed 6-0.

6 **4. Licensing and Medical Education Committee**

7
8 The Board approved the academic year 2007-08 applications pending from schools and graduate
9 medical education programs, with the Committee having delegated authority to review and
10 approve additional applications. Dr. LaRose moved and Mr. Cheng seconded approval of six
11 schools; the motion passed on 6-0 voice vote. Ms. Gerena-Rios moved and Mr. Cheng seconded
12 the motion passing 6-0 on voice vote to approve the residency programs.

13
14 Ms. Gerena-Rios seconded and amended a LaRose motion, directing staff to include on the next
15 meeting's agenda action for approving public notice of a possible rulemaking to recognize the
16 United States Medical Licensing Exam pursuant to Business & Professions Code Section 2486
17 (b), to also direct staff to work with the California and American Podiatric Medical Association
18 representatives reviewing related matters prior to the national leadership meeting March 24 in
19 Washington, DC. The motion passed 6-0, voice vote. The concern focuses on the delay of the
20 National Board of Podiatric Medical Examiners (NBPME) in upgrading its Part III exam to
21 reflect the profession's definition of entry-level competence, i.e., that following two years of
22 graduate medical education, which is required by California law.

23
24 Mr. Ritter indicated he would prepare a legal analysis in regard to the USMLE Section III exam.

26 **5. Enforcement Committee**

27
28 Vice President Gerena-Rios indicated she would attend June 22 annual enforcement meeting,
29 chaired by Enforcement Coordinator Michelle Mason for BPM's medical consultants.

30
31 The Board Members indicated they do not favor at this time receiving electronic transmissions of
32 mail ballot packages.

34 **6. Legislative Committee**

35
36 The Board expressed a consensus that a 5-4 non-licensee majority for its composition is
37 workable but that a 4-3 non-licensee majority could take the Board below a minimum critical
38 mass of licensee input, given the possibility of vacancies, illness, and other conflicts that
39 sometimes prevent attendance.

40
41 Mr. Ritter indicated he would prepare a legal analysis regarding "orthotics," and the Board also
42 requested staff to report on recent complaint history in this area.

43
44 The Board adjourned for lunch at 12:05 PM.

46 **7. Annual Evaluation**

47
48 Returning to open session at 2:00 PM, the Board heard comments and discussed executive
49 officer performance, with the incumbent outside the room.
